

# GEORGIA PARENTS NEED Affordable and Quality CHILD CARE

and NOT another barrier between them and a job

Georgia's child care subsidy program (CAPS) helps low income working families pay for child care so that parents can earn and children can learn. More than 50,000 Georgia children receive subsidized child care. But there are many more parents who want to work, if only they had a little help with child care.

## 4 WAYS CHILD CARE BOOSTS GEORGIA'S ECONOMY

### \$24 BILLION

Of parents' annual earnings is supported by the availability of child care in Georgia

### \$13 FOR EVERY \$1 INVESTED

By connecting disadvantage kids with both quality child care and pre-K

### \$13 BILLION PER YEAR SAVED

With less work disruptions, like being late or missing a day of work due to the lack of child care

### \$4.7 BILLION GENERATED

GA's early child care industry generated just as much as the pharmaceutical, manufacturing, and health and personal care retailers.

## A \$9.5 million investment could serve 2,500 more children.
